

UPC Agri Products Pty Ltd is an Australian producer and exporter of premium livestock feeds and nutritional solutions for beef cattle, dairy cattle, sheep and goats.

Based in Western Australia, we combine Australian agricultural resources, modern feed manufacturing technology and animal nutrition expertise to deliver safe, reliable and cost-effective feeds for domestic and international livestock industries.

As a member of the UPC Group of Companies, we are committed to supporting profitable livestock production through scientifically formulated feeds, rigorous quality assurance and long-term customer partnerships.

Our Products

Calf & Lamb Booster Pellets

Nutrient-dense pellets formulated to support rapid growth and development of growing calves and lambs.

Livestock Maintenance Pellets

Balanced nutrition for maintaining body condition during seasonal feed shortages and dry periods.

Summer Boost Pellets

High-fibre pellets designed to support rumen function and livestock performance in intensive and supplementary feeding systems at lowest-cost possible.

UPC GreenPro Protein Pellets

A high-quality protein supplement pellet designed to support:

- Growth and weight gain
- Feed conversion efficiency
- Milk production
- Reproductive performance
- Overall animal health and productivity

Premium Australian Ingredients

Our feeds are formulated using carefully selected Australian ingredients, including:

- Barley
- Canola Meal
- Lupins
- Molasses
- Vegetable Oils
- Vitamins & Minerals
- Feed Additives and Rumen Enhancers

Formulations can be customised to meet specific livestock requirements, production objectives and market conditions.

Quality Assurance

Quality and feed safety are central to our operations.

Our quality systems incorporate:

- HACCP-based feed safety principles
- Feed traceability programs
- Raw material verification procedures
- Nutritional quality monitoring
- Mycotoxin risk management
- Supplier approval programs
- Pellet quality testing
- Laboratory verification & quality control

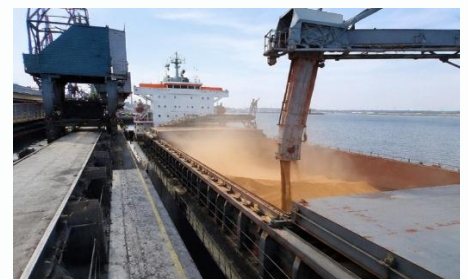

Every batch is produced to ensure nutritional consistency, product integrity and customer confidence.

Export Markets

UPC AgriProducts is strategically positioned to supply livestock feed products throughout:

- Australia
- Indonesia
- Southeast Asia
- Middle East Markets

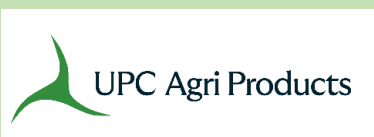

We work closely with feed mills, distributors, importers, traders and livestock producers to provide reliable feed solutions and long-term supply partnerships.

Why Choose UPC AgriProducts?
